Profile Summary

Dedicated and ambitious Electrical and Computer Engineering student at Addis Ababa University with a strong passion for software engineering and backend development. Proficient in Java, Python, C, HTML, CSS, JavaScript, and SQL, with hands-on experience designing and building functional, user-focused applications. Developed multiple projects, including a **mobile-friendly personal website** (Live Demo), a **School Management System**, and **Chef Claude**, an **AI-powered cloud application** (GitHub). Currently expanding my expertise in algorithms, data structures, and system design with the goal of joining the **A2SV training program** to refine my problem-solving abilities and advance toward becoming a **Google-level software engineer** capable of building secure, scalable, and impactful systems.

Education

Addis Ababa University — Bachelor of Science in Electrical and Computer Engineering (3rd Year Student)

Focus Areas: Computer Engineering, Software Systems, Embedded Systems

Expected Graduation: 2027

Technical Skills

Programming Languages: Java, Python, C, JavaScript, HTML, CSS, SQL

Frameworks & Tools: Node.js, React, Git, VS Code, Linux, Tailwind CSS

Core Competencies: Backend Development, REST API Design, Algorithms & Data Structures, Problem Solving, Object-Oriented Programming, Database Design

Projects

Personal Website — A mobile-friendly web app showcasing projects and skills. (Live Demo)

School Management System — A system for managing students, teachers, and administrative data using modern web technologies.

Chef Claude (AI Cloud App) — An AI-powered cloud-based cooking assistant integrating intelligent recipe generation and management. (GitHub)
